

WEDNESDAY

MORNING

GARDEN

TOURS

The award-winning
**Shirley Cross
Wildflower Garden**

at the Green Briar
Nature Center is
offering guided tours
every Wednesday
morning June through
August at 10am

The one-third acre garden
contains over 300 plants
consisting of three zones:
shaded hillside, freshwater
wetland and open meadow.
Each week offers visitors
something new to discover;
whether in bloom or going to
seed, the flowers are always
changing. Tours often include
guest appearances from local
animals who call Green Briar
home. Past visits include
bunnies using the garden paths,
a woodcock in the underbrush,
hummingbirds buzzing by, or
a muskrat getting back to the
Smiling Pool. Join a summer
garden tour and see what
nature and wildflowers have
waiting for you.

**\$4 for members, \$6 for
non-members. No reservations
needed. Proceeds support
maintenance of the wildflower
garden. Tours run Wednesdays,
June 6 to August 29.**
